Hydraulically Operated discharge tube for quick engage disengagement without any extra labour

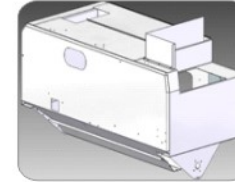

Comfortable cushioned driver seat with adjustable height

Hydraulic Power Steering easy to move with less force

Slant Ladder for comfortable & safely climbing

Large grain tank capacity enables long working hours with minimum interruption

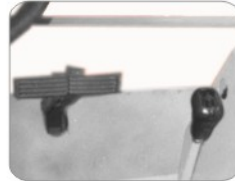

Best Paint quality

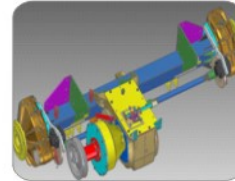

Engine cooling by clean air through rotating sieve

Bigger shields covering rotated parts with extra safety

Easy to turn in small area due to individual braking system

Heavy duty gearbox with five speeds Collar shift gears

Single Lever for shift gears

Ladder cover with sheet for safety purpose

Oil-immersed brake designed for use on a drive heavy machines

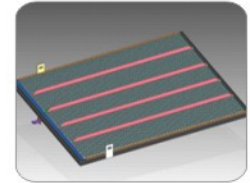

Well designed crop feeding mechanism

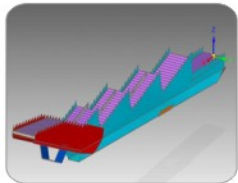

Broad Cutter Bar covering more cutting area. Superior tine material, Sharp edge cutting blade used, Auger with Big Dia

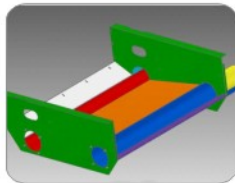

Cutting blade driven thru. Gear mechanism

Large sieve area for optimum grain cleaning

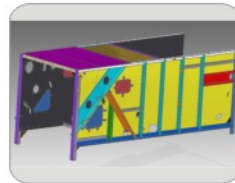

Long length Straw Walker for complete exit of straw

Stainless steel sheet used for long life of auger casing

Easy to open elevators for maintenance & services

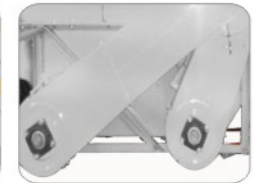

Heavy duty, long durable and robust structure makes our machine to withstand against any impact

Long distance Focus Light

Broader canopy providing extra cover to the operator area

Stainless steel sheet used for long life of parts which are subjected to more wearing like elevators. Used UCF bearing is widely appreciated for durability and long serviceability
