

PREET

HAY RAKE

FARMING WITH PASSION

Delivering Ultimate Mechanical Perfection

PREET HAY RAKE

MAIN FEATURES

FARMING WITH PASSION

ROBUST and SINGLE ROTOR

Provides excellent working performance with its noncomplex structure
Works long-lived with low power requirement and minimum maintenance
Compact and light design that can be operated by smaller carriers

EASY HEIGHT ADJUSTMENT

The adjustment setting for working height is quite easy with the help of the lever arm on the machine.
With this lever arm, you can practically set the raking height in order to maximize the crop pickup while minimizing the gathering of undesirable materials

REINFORCED TINES FOR WIDE COLLECTION

PREET 4949 Rakes were designed for users looking to increase their productivity and save their precious time and minimize the costs

ADJUSTABLE WINDROW CURTAIN

Windrow can swiftly be adjusted in 3 different distances by taking off the pins and moving to rear or front in order to give desired position to the cut hay

ULTIMATE PRODUCTIVITY

Single rotary rakes feature a couple of significant advantages. Some of these are fast working speeds, large working widths, practicality on rough conditions and increased maneuverability for outstanding productivity

THREE-POINT LINKAGE

Three-Point Linkage connection ensures more safely and stability operation

The optimum number of tines and arms allow you to operate at higher speeds while keeping a slower rotor speed.
They are expert on making fluffy hay thanks to their well-formed tine design

COMPACT TRANSPORTATION

Within a very short time, the arms of the rakes are taken off and put vertically on the machine
Proven design Wheel chassis allows easy transportation on the rough conditions and uneven grounds

PREET HAY RAKE

FARMING WITH PASSION

TECHNICAL SPECIFICATIONS

Model	PREET 4949	
Number of Rotor	Qty	1
Diameter of Raking	mm	3035
Coil Spring per Arm	Qty	4
Tine per Arm	Qty	11
RPM of Rotor	rpm	81
Weight	kg	600
Length	mm	3065
Width (Road)	mm	2030
Width (Duty)	mm	3895 - 4175
Height (Road)	mm	2400
Height (Duty)	mm	1050
Minimum Power Requirement	HP	50
PTO	rpm	540
Transmission		1 Shaft
